Across Gijón

The residence is well communicated with the old city and in the quiet quarter of Coto; only 10 minutes on foot far from the main beach in Gijón, San Lorenzo Beach. You can enjoy the wide cultural, gastronomy and leisure variety in Gijón. Experience its museums, cider houses, walks along the bay, beaches and trekking routes. Experience its traditions, people, history and if the weather is not nice, do not worry, it is part of this beautiful city. The residence is the starting point to know and visit the Principado. The most important touristic sites in the region are only 1 hour far. Visit Covadonga, Picos de Europa, Llanes and its beaches, Lluarca, Cudillero, Lastres, Navia (typical coastal villages) and, of course, Oviedo.

ACTIVITIES

Active tourism

The active tourism in Asturias is one of the biggest appeals and the best way to enjoy its nature. Asturias resources are endless, as many as the nature in Asturias.

You can canoe down Sella River, go canyoning, go on the Ruta del Cares, walk around the core of Picos de Europa, surf at San Lorenzo beach, take the Senda del Oso by bike (Bear Route) or go skiing to one of the three skiing resorts in Asturias.

Cultural tourism

Asturias cultural heritage is wide. From the Pre-Romanesque Asturian art, deeply linked to the first Christian kingdom in the Iberian Peninsula, until the rock art Paradise with five caves declared world heritage site, as well as its religious heritage centre, with the Cámara Santa in the Cathedral of Oviedo, the old Way of St. James and a huge number of varied museums (mining, industry, cider, jurasic, prehistoric, etc).
